Marwan Ahmed

AI VIDEO PRODUCER & MOTION DESIGNER · EGYPT

AI commercials that look shot, not generated.

AI product ads, brand films and social visuals for brands and agencies, finished with real motion design, editing and sound.

I turn briefs into finished AI commercials.

I work at a creative agency in the MENA region, making AI-led video for food, automotive, beverage and FMCG brands across Egypt, Saudi Arabia and the Gulf. I take a brief from concept to final delivery: AI generation, editing, motion graphics, sound design and every format and size.

TOOLS

After Effects · Premiere Pro · Photoshop · Illustrator

WHAT I MAKE

01

AI product ads

Scroll-stopping Reels and TikTok ads, no shoot needed.

02

AI brand films

Cinematic concept films with consistent characters and style.

03

AI product visuals

Studio and lifestyle product imagery for stores and campaigns.

04

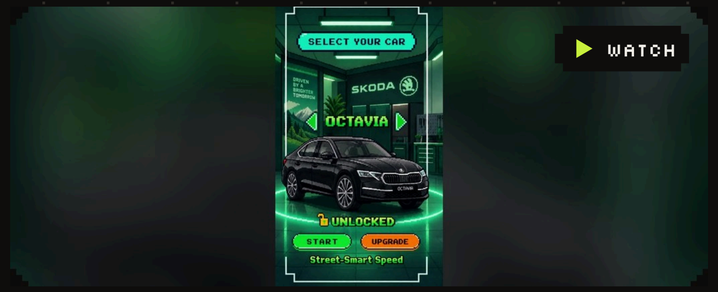

Motion design

Logo animation, titles, sound and every size the media plan needs.

Brands I've made work for
